

# PRECISION BORING HEAD

## MODEL DR 35

for cloth fit precision borings (H6) and high surface qualities

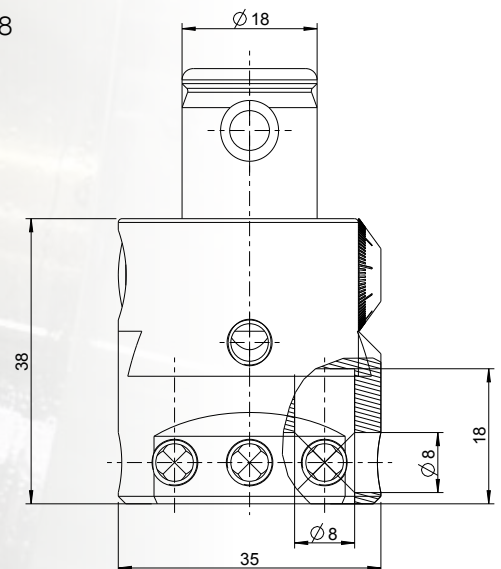

Order No. DR 35

### Facts

This fine boring head has been designed for cloth fit precision borings and high surface qualities.

### Special advantages

- reading accuracy 0,01 mm Ø (1 stroke = 0,01/Ø) with the fine adjustable micrometer spindle with easy-to-read scale.
- Fine adjustment is possible while retaining the high repetitive accuracy.
- High rigidity thanks to its shortness and its dovetail guideway, ground to be free of play.
- Boring tool reception Ø 8
