

PRECISION BORING HEAD ES 380 FOR MODULAR SYSTEM

Ø 3 mm to Ø 80 mm

Order No. 380-10
380-12
380-16

Facts

Boring range from 3 to 80 mm is achieved by the use of various tools. Three vertical mounting holes and a horizontal one make the tool universal. It is also possible to chuck chamfering tools in these mountings for chamfering or deburring holes.

The same Head is also available with tool reception
Ø 12 mm (Order No. 380-12) with two mounting holes
Ø 16 mm (Order No. 380-16) with one central bore.
